

Thursday October 25: God Heals a lady suffering brain trauma since 1985

Healing meeting was held at Tallebudgera Uniting where 20 people attended. John spoke on John 5 and led in a healing time where he asked the Holy Spirit to heal and minister to the people. he then led a healing time for people to download their doubt and unbelief, their hurt and unforgiveness to Jesus. People were the prayed for. One lady testified that she had brain trauma since 1985. This prevented her from look at Data Projectors and movies and her hearing was affected. Since 1985, she had been affected. Now in her 80's, God healed her so that she can look at the screen and hear what is going on in church. She is so excited and told everyone at church on Sunday. One lady's back was healed. She had much stress in her life and now she is well again. One lady struggling with the after effects of breast surgery was touched and emotionally healed by God. We give God all the glory and praise.
